CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

A WISE MEASURE.

In the interest of the prompt and systematic dispatch of the public business of San Mateo County, which is the one particularly interested, as well as in justice to its officials, Assemblyman Brown's bill for the readjustment of the office force and and compensation of some of our county officials should receive the endorsement of the Legislature and the approval of the Governor. The provisions of the bill will receive the endorsement of every tax payer at all familiar with the business transacted in the offices of the county and of every citizen who believes in just dealings with those in their employ. That those in a position to be familiar with the demands of the business of the county approve of the measure is evidenced in that to at least a very large extent it follows the recommendations made during several successive years by the grand jury, a body usually composed of men who are more apt to favor retrenchment than increase in county expenditures. Each year this body has carefully investigated the affairs of each of the county officials and has as regularly recommended practicall the changes provided for in Assemblyman Brown's measure, and in all probability it was these recommendations which inspired the preparation of the bill.

That changes along these lines have been needed for some years must be evident to any one at all familiar with the history of the county. During this time the population of the county has greatly increased and necessarily the burden of caring for its public business has been added to in like proportion. This increase of business makes one of two conditions imperative—either there must be an increase in the number of employees or the public business must be neglected and its transaction delayed. The latter of these conditions no one desires and if the former is to be secured there must of necessity be an added public expenditure.

Nor should any of these officials be compelled to plead with the Board of Supervisors every time he finds that the business of his office requires additional assistance, either temporary or permanent, for its systematic and proper disposal. These men have been selected by the people of the county for the positions which theyoccupy for the reason that their fellow citizens had confidence in their integrity and ability, and good business judgment would dictate that matters of this character should be left to their discretion, subject of course to the supervision which is properly provided through the medium of the grand jury, the members of which body can usually be trusted to give such matters careful and intelligent consideration.

A slight consideration of the more important provisions of this bill will serve to show the justice and wisdom of its provisions. Take for instance the office of County Clerk, the duties of which are multifarious and require ability of a varied character. In addition to the general duties of the office the keeping of the affairs and records of the business of the Board of Supervisors as well as the handling of the business of the Superior Court devolve entirely upon the force of his office. All of this is business it is exceedingly important should be transacted not only accurately but promptly. To accomplish this requires a sufficient and well skilled help, and it is not justice to ask that the county clerk pay for this out of his own salary as he has frequently been compelled to do in the past. That there is need of increased assistance in this office is easily seen from a comparison of the present business of the office with that of but four years ago. The business of the Superior Court shows that during the past four years the work of this department has more than doubled, as in 1906 there were but 191 cases filed as against 403 in 1910. And that there is just ground for an increase in expense is shown by the fact that during the same four years the earnings of the office in fees from this source increased from $1,914.80 to $3,972.40. In the business of the Supervisors the mere citation of the number of claims considered and allowed against the county by the Board will serve as an index of the increase in theroutinework of the office. During the period just cited the number of the claims increased from 2,610 to 4,011, and it must be understood that the proper record of each of these claims requires a number of separate entries. And as the business of the departments cited has increased so of necessity must that all other departments of the office grown in like proportion. If we are to have this office conducted efficiently, certainly the salaries provided in the bill are none too large, nor is the clerk allowed too much discretion when he is empowered to increase his force by an additional deputy during the rush of work incident to a general election.

That there should be a general remodeling of the salary method of the tax collector seems to be almost imperative. In reality the provisions of the bill make but little real difference in the compensation of this official as contemplated in the past, but rather simply and properly does away with the unsatisfactory fee system, a plan which has always proven unsatisfactory both to the officer and to the public. In making provision for a proper recompense for this officer it was but just that there should be an apparent material increase in the salary to compensate for the loss of fees. Nor is any too soon, in justice to the tax collector, that the change from the fee system should be made, for while the development of the county has constantly increased the work of the office the same condition has served to decrease its incomefrom this office. To a large extent the fees of the office came from the collection of licenses, and as the development of the county continued this source of income has been abridged by the incorporation of new municipalities which as they are incorporated collect and retain for themselves the licenses issued within their jurisdiction. At the same time the incorporation of these municipalities tend to encourage the subdivision of large racts of land and thus to materially add to the labor of the tax collector's office.

Another example of the justice and necessity of the provisions of this bill is the office of county recorder, and office in which it is imperative that business should be transacted promptly and the records kept with that extreme accuracy that precludes undue haste. As the population of the county has increase there has been a corresponding multiplication of the transfers of realty and increase in the work of the recorder's office, which must more than justify an increase in the compensation of that office. That the office of the recorder has been far from a burden to the tax payers is evidenced b ythe fact that at the present time that official is paying into the treasury as the fees received from his work an average of about $1,000. per month, which represents a profit of ever 130 per cent on the cost ofthe conduct of the office. The method provided in this bill for the employment and compensation of the copyiss necessary to keep up the record of transfers is one which will meet the approval ofanybusiness man. Under this provision this class of help is paid only for the amount of work done and the number to be employed is lef to the discretion of the recorder, to be governed by the amount of work to be done. As there is a constant varience in the amount of this character of work, governed by the number and character of the documents filed for record, this is undoubtedly the only business like method o pursue in the employment of this portion of the office force of the recorder.

This argument might be continued through the list of officials affected by the bill under consideration. The cases cited, however, are amply sufficient toattest the wisdom of its provisions.

But one objection could be possibly be raised against this bill, and that is that not all of the officials of the county are provided for. Both the district attorney and treasurer should be allowed a deputy and provisions made for their payment by the county. This however, seems to be the fault of the general law rather than an omission on the part of the author of the bill. Under the law of the state, thecompensation allowed for these officers can not be changed during the incumbency of the present officials, or for nearly four years. For this reason both Assemblyman Brown and Senator Holohan seem to be of theopinion that these changes, while they should be made, had best be left to the session of the Legislature two years hence, when the requirements of the officials may better be determined.

Certainly no one with a spark of justice in his makeup can make objection to the bill, either in the compensation given the officials or their assistants, nor to the slight amount of discretion allowed them in the employment of assistants. It has become a general axiom that the laborer is entitled to reasonable compensation and this certainly applies with equal force to the public official. And while he is given reasonable compensation, he should at the same time be placed in a position to be free from the carpings of the disgruntled low to fatten off the patronage of individual who he has refused to althe county.

In the Superior Court of the County of San Mateo, State of California.

In the Matter of the Estate of Jane Emiline Stafford, also known as Emiline J. Stafford, deceased. No. 1416

Order to show cause why administrator should not be granted leave to sell estate of said deceased.

Thomas Stafford, the administrator of the estate of Jane Emiline Stafford, also known as Emeline J. Stafford, deceased, having presented to the court in the above entitled matter his varified petition praying said court for an order of sale of all of the estate of said decedent, both real and personal, and it appearing to this court from such petition that it is necessary and that it will be for the benefit and best interest of the estate and those interested therein to sell the whole, or some portion of the estate to pay the debts of said estate and the expenses and charges of the administration thereof, and that it is for the advantage, benefit and best interest of said estate to all sell of the property thereof, and for the purposes and reasons mentioned and set forth in said pteition, to which reference is hereby made and the same made a part thereof for further particulars.

Now Therefore, it is ordered that said petition be filed and that all persons interested in said estate appear before this court at the court-room thereof, at the courthouse in Redwood City, county of San Mateo, state of California, on Thursday the 27th day of April, 1911, at the hour of ten o'clock a. m. to show cause, if any they have, why the prayer of said petition should not be granted an order made granting to said administrator the right to sell so much of the estate of said decedent as shall be necessary and for advantage, benefit and best interest of said estate and those interested therein, at either public or private sale; and that a copy of this order be published for at least four successive weeks before said day of hearing, in the Times-Gazette, a newspaper of general circulation published in said county of San Mateo, State of California.

Done in open court this 23rd day of March, 1911.

REMINISCENCES OF OUR PIONEER DAYS

Gleanings From the Records Left By Men Who Laid the Foundation of Our County.

So far as San Mateo county was concerned, the results of the fall election of 1879 were decidedly mixed—that is as between the Republicans and the adherents of what during the campaign had been known as the coalition between the new constitution on one wing of the Workingmen's party. The Democrats were left entirely out in the cold, not succeeding in electing even one of their candidates, and in fact showing but a hopeless minority of votes. The successful candidates were as follows: Superior judge, E. F. Head; county clerk, Henry Walker; sheriff, George W. Green; assessor, C. W. Hartsough; treasurer, W. J. Wilcox; auditor, E. Eikerenkotter; district attorney, Edw. Barry; surveyor, J. J. Cloud; superintendent of schools, G. P. Hartley; coroner, Dr. E. W. Loveland. A total of 1436 votes were cast, and the successful candidate receiving the largest majority was Sheriff G. Green, who was renominated by the Republicans, while the smallest majority was 27 for W. J. Wilcox, the Republican candidate for treasurer.

Here is another notice of an addition to the population of Redwood City: "Born, in Redwood City, August 27th, 1879, to Mr. and Mrs. John Curran, a daughter."

On August 26th, 1879, Redwood City was honored by a brief visit from General Grant, then on the return lap of his voyage around the world. The trip of the distinguished visitor was made on a special train which was run for the accommodation of the guest of the people in a trip as far as San Jose. That the stay in this city was far from a lengthy one is realized when the statement is made that the special train reached here at 11:19 and departed at 11:22. The denizens of the town evidently declined to allow the brevity of the visit to interfere with either their curiosity or desire to do honor to a man who occupied a high nitch in the regard of his fellow citizens, as will appear from the following account of the occasion published in the issue of the Times and Gazette of the following day: "General Grant made a flying visit to Redwood City yesterday. The occasion will ever be a memorable one in the anals of the town. Business was generally suspended in anticipation of the arrival of the distinguished guest. The public schools were closed and the children, marshaled by their teachers, proceeded in a body to welcome the distinguished guest. Many of our foremost citizens were present in the multitude that gathered to greet him. It was indeed a brief visit, and was ended before one in a hundred of those gathered at the depot knew it had commenced. Such was Grant's first visit to Redwood City.'"

Here is a little quotation from the columns of the Times and Gazette of October 4th, 1879, which maye revive some memories among people yet interested in local affairs: Married, on Tuesday evening September 30th, at the residence of the parents of the bride, by the Rev. Charles N. Spaulding, rector of St. Peter's Episcopal church, Daniel Mullen and Miss Annie Heiner, both of this town."

The first railroad accident to occur within the limits of the town of Redwood City since the construction of the road occurred on the afternoon of October 1st, 1879, the scene of the accident being at the crossing at Mound street. The victim was Thomas Shine, a resident of Woodside, and that he escaped with his life must have been a matter of good luck, certainly not of extreme precaution on the part of any one. Shine, in company with a stranger who had begged a ride into town, was driving a loaded wagon drawn b yfour horses, the two men occupying an elevated seat. Just as the lead horses of the team were upon the track the express train from San Francisco came along at a high rate of speed. When Shine discovered the train it was almost upon him, being less than 100 yerds away, and as his only hope he endeavored to urge the team on and cross ahead of the train. In this he was not entirely successful and the rear end of the wagon was caught by the locomotive. The shock of the collision threw the two men from the seat and while the stranger escaped without injury, Shine was badly shaken up and received a bad fracture of his wrist. That the train was under a good headway is evident from the fact that the wreck of the wagon was dragged two blocks before the locomotive could be brought to a stop.

On the 21st of January, 1880, Bay Lodge of the A.O.U.W. was instituted at Halfmoon Bay, with a charter list of 18 members. The first officers of this lodge were: George W. Lovie, past master; Wm. Pringle, master; James Buelah, foreman; H. Rhodes, overseer; J. D. Hayner, recorder; H. S. Pitcher, financier; E. Schubert, receiver; F. W. Rickman, guard; A. Osterman, inside guardian Antone Bernhardt, outside guardian.

CONTRACT AWARDED FOR DREDGING THE CREEK.

The government has awarded a contract to the J. C. Franks Dredging Company of San Francisco to dredge a portion of the creek in accordance with the act of Congress due to the efforts of Mr. Hayes, by which the sum of $12,000 was appropriated for that purpose. The part of the creek deemed in greatest need of dredging is that portion extending from the deep-water wharf to the junction of Smith's creek with the main estuary. Here the shoaling has been more noticeable than in any other part of the stream. The contractor will dredge a section 75 feet wide and five feet deep at low water. His machine has a length of 130 feet, is of 65 feet beam and carries a boom of 180 feet. Each movement of the dredge from the creek bed to the embankment will carry a removal of 5 cubic yards of mud. A large portion of this material will be used for filling on the salt beds of the West Shore Company. In all 100,000 cubic yards will be excavated, after which the creek will be in excellent condition for traffic.

ORGANIZATION FORMED BY REDWOOD CITY BOYS

Through all boydom there has been a great deal of activity of late as is evidenced by the wonderful progress made by the Boy Secuts, and kindred organizations. Redwood boys are not at the tail-end of the procession by any means and a few weeks ago organized the Redwood City Boys' Club. Boys from nine to fifteen years of age are eligible, and over thirty have signified their intention of becoming members. It is the aim to have hikes, debates, plays, etc. Suits simiiar to the Boy Scout's will be used, and the outside activities will be very much the same. In fact, it is their plan to affiliate with the California Boy Scouts. The following officers were chosen: Fred Read, president; Stanton Mullen, vice president; Wesley Locker, secretary, and the club leader as treasurer. In addition to these officers, two other members were appointed to make up an advisory board, Nick Valencia and Louis Behrens.

Death of G. G. German.

Gordon G. German, an old and highly esteemed resident of Woodside, died in this city Monday, after an illness of several weeks. The deceased was a native of Canada, aged 68 years. Death was caused by paralysis.

George Debenedetti has about completed arrangements for the opening of his new store at San Bruno. During the past week he has been getting in portions of his stock.

Has Redwood City Office.

E. W. Magruder of 1035 Market street, San Francisco, has had the biggest success ever known in selling lots in and about Redwood City. In the past five months he has sold off the entire Gray Tract, consisting of 21 acres subdivided into building lots, besides over 100 lots in other subdivisions in and about Redwood City. It has also sold a number of improved properties in Redwood. This firm has recently opened a local office in Redwood City and expects to do even a larger business this coming summer. E. W. Magruder is a big advertiser and he is locating a great many people in Redwood. G. C. Johnstone of Weed, California, will manage Mr. Magruder's Redwood office.

The trout season opens April 1st. As a consequence of the late heavy rains the streams will be high and the sportsmen of the county are looking forward to excellent fishing. Hull Bros. have a full line of fishing tackle, including rods, reels, leaders, lines, hooks, flies, bait boxes, baskets, spoons, spinners and all the paraphernalia needed to catch the wary denizens of the streams.

Piano Buyers Attention

PRICES NEVER SO LOW

DON'T WAIT

TERMS NEVER SO EASY

BUY NOW

Since our opening last Saturday we have positively demonstrated to the hundreds that have visited our store that we are selling High Grade Instruments at prices lower than pianos have ever been sold before in San Mateo County

If you are thinking of buying a Piano or exchanging your old piano for a better one or for the famous Autopiano it will pay you to call at once and examine the remarkable values we are offering at our Redwood City Store, Piano Values obtainable nowhere else in California.

We will carry in stock a representative line of the Famous Pianos for which Eilers Music House has the exclusive agency, including such celebrated makes as Chickering, Kimball, Marshall, Wendell, etc.

Ten years ago the first Eilers piano store was established on the Pacific Coast. The "New York Musical Courier" is authority for the statement that one-half of the pianos now sold in the Pacific Coast State are sold through the Eilers stores.

From one small store the organization has grown to forty. From selling a few hundred pianos in a yeur ia has developed until now the sales are numbered by many thousands.

No buisness could grow to these wonderfull proportions without good reason. The ever-increasing patronage of the Eilers piano stores would have been inpossible without the thorough confidence of the people gained by the most progressive, straightforward and liberal treatment of every patron of the house.

From the day we first opened our buisness on the Coast untill the present time it has been our aim to make every customer a satisfied customer, for we realize that the best advertising we can do is to gain the good-will and the influence of our patrons.

It has always been our aim to give more value to the piano buyer than any other dealer could. To accomplish this we have established a system effecting every possible saving for the benefit of the customers.

Shipping in Carloads

All our pianos come in carload shipment lots, and this, together with the "harmess system" introduced by us for piano shipments, has enabled us to save for patrons many thousands of dollars each year, that otherwise would have have gone to the railroads.

Factory Inspection

There is often a big differenc in pianos of the same make and style. They may not vary in the quality of the material used, but in the general workmanship and the tone-quality of the piano. We have an experienced piano man, who understands piano construction, constantly in the Eastern factories, to select the very choicest insturments. He chooses from thousands of instruments, the pianos of the best construction; thos most beautifully finished and those having the most rich, resonant tones. Other dealers must be content to accept from the factory the pianos shiped them—we get our choice of the choicest.

A Binding Guarantee

Having selected the choicest pianos of the various factories we are enabled to give with each instrument sold a binding guarantee that warrants the instrument against every defect of every description. We assure every purchaser entire satisfaction or a return of his money.

Efficient Tuners and Regulators

We have a corps of thoroughly efficient tuners and action regulatiors, every one of whom has had experience in Eastern piano factories and who understands the making of a piano in every detail.

Every piano shiped from our stores is first thoroughly tested by these experienced men in our shops. The action is adjusted with the greatest care so as meet the varying climatic condition in which it is to be used, and it is so regulated as to insure a rich, round, full tone. Many a good piano is unsatisfactory because of poor regulation.

Sterling Names

In selecting the pianos that we represent, special preference has been given to those manufactors whos names have for many years been a guarantee of excellance, makes that have been sold by the older houses for many years.

The famous Chickering, America's oldest and the world's best; the most popular of all highgrade pianos, the world-renowned Kimball; the Sohmer, the favorite with the most appreciative musicians; the rich-toned Lester, used in scores of musical conservitories; the Hazelton, "The Piano of the New York Aristocracy"; the genuine Decker; the always popular Hallet & Davis; the artistic, the genuine Autopiano, already in use in over a thousand California homes and that perfect instrument the Krell Autogrand. These names and many others attest to the high quality for which we constantly strive. No two firms combined can show such a comprehensive line of high grade pianos.

Saves you Mouey

To buy a piano of the Eilers stores mean to have the service of experts in making the selection for you. It means hight quality in the piano you receive. It means a binding guarantee that insures you against disappointment in any way. But best of all, it means that you get the highest grade piano for the mouey that is usually paid for an inferior instrument.

SUPERVIRORS HOLD REGULAR MEETING

County Board Disposes of Long Calendar of Routine Business.

The board of supervisors met in regular session last Monday and transacted considerable business.

The residents of Lomita Park petitioned the board to call an election for the purpose of forming the Lomita Highway Lighting district. The boundaries of the proposed district were not set forth in the petition and on order of the chairman the petition wos withdrawn to be presented at the next meeting accompanied by a map of said proposed district.

Mrs. B. Phillips, an indigent person of the Fourth township, was granted an allowance of $8 per month, on motion of Brown, seconded by Blackburn.

Alice E. Doyle of the First township was granted $8 per month and $6 to each for herfour children, on motion of Blackburn, seconded by Casey. Casey explained that Mrs. Doyle was willing to work at her calling as milliner but on account of her young children was unable to leave home.

E. D. Dunbar was granted a rebate on his liquor license. He conducts a grocery and liquor store at Easton and that place having recently become a portion of Burlingame he will have to pay a license to the city of Burlingame.

Hans Frahm of Colma whose property is near Mount Olivet cemetery, complained that the water of a stream in his neighborhood had been diverted from its natural course so as to overflow his land.

No action was taken

The Lomita Park Improvement Company sent a communication complaining that the overflow from the main county road at that place had been turned onto their property, causing damage to them.

The communication was accepted and filed on motion of Blackburn seconded by Brown, and the matter referred to Casey.

Wm. H. Hanson sent a protest against the use of the flag pole, presented by him to the county, for wireless telephone experiments, claiming that the pole will be injured by such use and besides contaminated with the taint of commercialism. The pole was intended only for the floating of the stars and stripes, that glorious emblem of freedom.

The communication was accepted and filed and the clerk directed to inform Mr. Hanson that the use of the pole had been granted to Mr. Crown for one day, and that only the halyards were to be used for supporting the wires required in his experiments.

It was ordered, on motion of Casey, seconded by Blackburn, that the district attorney look into the county's title to its waterways and see if some remedy may not be found for the relief of those who claim that their property had been injured by the diverting of streams from their natural courses.

The matter of the formation of a fire district at San Bruno was taken up. The district attorney advised the board that the petition presented at the last meeting was according to law and that the supervisors had no discretionary power and had to appoint commissioners. After A. A. La Roux, D. J. Lynch and G. Fagan had addressed the the board on behalf of the petitioners, the following commissioners were appointed: E. M. A. Pallas, T. F. Brady and Patrick Keane.

The chairman stated that the bridge across the Woodruff crook near LaHonda had been damaged by the recent storm and was in a dangerous condition. Plans had been prepared for a new bridge and he asked that action be taken at once toward having the bridge rebuilt.

It was on motion of Blackburn, seconded by Casey, ordered that the clerk issue a call for bids for a new bridge.

Surveyor Neuman stated that he was preparing plans for a bridge for Supervisor Casey to take the place of one that had been washed out in the recent storm. He thought that the board might take immediate action in this matter also. It was decided to hold an adjourned meeting on Friday for this purpose.

The chairman suggested that the bid received at the last meeting for furnishing the courthouse grounds with loam and fertilizer be rejected and that the superintendent procure the material by day's work.

Such action was ordered on motion of Francis, seconded by McEvoy.

Reports on a number of matters that had been referred to District Attorney Swart were laid over until the next meeting.

Brown was authorized on motion of Blackburn, seconded by Casey, to have the exposed sewer mains in the Homestead Sanitary District covered, keeping account of the cost and making it a charge against the sanitary district.

Chairman McEvoy suggested that the motorcycle patrolmen, recently appointed be compelled to make a report of their arrests to the board

Francis inquired as to what fund the patrolmen were to be paid. On investigation it was discovered that no particular fund was mentioned in the motion calling for the appointments. On motion of Casey it was agreed that they be paid out of the Generad Road fund. Francis gave notice that he would audit no claims for any such purpose for the General fund. He thought such claims should be paid from the road funds in which the men are employed.

Cameron H. King jr. addressed the board in reference to the Daly City election, held last Saturday, and stated that forty-six of the ballots voted had not been counted. He asked that the returns be sent back to the election board and that they be directed to complete their work.

J. L. Brown, one of the election officers, stated that the ballots referred to had been rejected because they bore distinguishing marks.

It was decided to proceed with the canvass of the votes and the returns were opened..

The result was declared by resolution as follows: That 325 votes were cast of which 138 were cast for incorporation and 136 against; that Martin Oberhaus, A. J. Green, Edward Freyer, T. J. Mullens and Dennis Quillinan were elected trustees; Walter J. White was elected clerk; T. Sheehan, treasurer; and Fred J. Hooper, marshal.

The result was declared by resolution adopted on motion of Casey, seconded by Brown.

SOUTHERN PACIFIC WINS AGAINST DOYLE HEIRS.

The condemnation suit of the Southern Pacific Railroad Company against John J. Doyle and others resulted in favor of the defendants so far as the price of the land sought to be condemned is concerned. The jury fixed the valuation at ten thousand dollars per acre for the right of way between Palo Alto and Fair Oaks. Six acres belong to the Doyle family, and the remainder is divided between the Casserleys, Donohoes, and Williams, making in all thirteen acres.

In 1864 Peter Donohoe and Paulhemus and two others proposed the idea of running a steam railroad from the Cityof San Jose and went to John T. Doyle, then one of the leading attorneys of San Francisco and the owners of considerable property about Menlo Park, to secure the right of way here, but he soon found out that the prices were very high and it cost him something like $500 per acre for the proposed right of way. He reported this to the new promoters and they held Doyle to his agreement which was that he was to furnish the land free if they would run the road through Menlo Park. This led to a coolness between Mr. Doyle and the company and for years after they were unfriendly. It was the understanding that the property which Doyle bought and gave to the company was torevert to his heirs after the term of the new corporation had expired. Doyle's friends had the same agreement. The life of the corporation ceased last August. Doyle before he died deedd ed the reversionary interest to his son. The land of course during the fifty years had become valuable as shown by the verdict of the jury.

Doyle was represented by Attorneys Rea, Peery and O'Keefe, the Casserly interest by J. B. Casserly, the Donohoe interest by Attorney Muller and the Williams interest by Attorney Elseworth and the railroad by E. F. Fitzpatrick. The total amount of cost to the company under the verdict for the right of way will be something like $130,000.

WOMEN ARE ENTERTAINED WITH MUSICAL SELECTIONS.

A pleasing feature in connection with the lecture given by Jacob Riis under the auspices of the Woman's Club on Tuesday evening was the rendition of a number of musical gens by Mr. Edw B. Baron at the autopiano.

What the entire world has sought for years has at last been accomplished with this wonderful instrument. The untrained music-lover can now, through the autopiano, secure education even though he may not know one note from another He may become intimately familiar with the music that is worth while by playing it himself. The inspiring works of Beethoven, Chopin, Schumann, Weber, Mendelssohn, Schubert and hundrends other masters can be enjoyed, not after years of drudging proctice and study, but at once.

Mr. Baron who is manager of the Eiler's Music Co.'s store here states that he will be pleased to give free demonstrations on theautopiano every afternoon and evening to which the public is invited.

REDWOOD CITY MERCHANTS WANT MORE PROTECTION

Petition Council for Appointment of Another Night Officer.

Although it is admitted by the trustees that this city is in need of additional police protection, no additions can be made to the force until such time as the finances of the city have improved and there is more money in sight with which to pay the required salary. This was the decision of the city council at its meeting Monday evening after a careful canvass of the situation. The needs of the city in this matter were brought before the council in a petition signed by a large number of business men, whoasked for the appointment of Charles H. Lorton as an additional night watchman. The petition offered to pay a portion of the salary but asked that the balance be paid from the city funds. In support of the petition President Dan Stafford of the Board of Trade stated that the members of that organization had considered the question and felt that the increase in the population of the city as well as the fact of more general railroad communication made the extra protection necessary. After a general discussion of the depleted condition of the treasury the trustees, while unanimously admitted the force of the argument, decided that the request could not be complied with at this time, but that there was hope that in the near future some such action might be advisable. In the mean time it was hoped that the business men might find means of meeting the entire expense, and to further this purpose it was decided to clothe Mr. Lorton with police powers as a deputy marshal.

The usual monthly reports of the city officers were presented and approved. These show that the receipts of the city for the month were as follows: Water collections, $620.10; licenses, $92.00; special permits, $7.50; water connections, $20.00; roller hire, $3.00, total, $742.10. Against this the expenditures amounted to a total of $1958.72, leaving the general fund overdrawn to the extent of $4753.58.

The report of poundmaster Cofuri showed that during the short time since he had commenced his duties he had impounded 36 dogs, 3 cows and five horses. All of the cows and horses had been redeemed by their owners, but the dogs had not been so fortunate and 28 of the number had beensent where there was no danger from their future annoyance of the public.

Limbaugh & Flynn were granted a saloon license as successors to M. Wilson, upon the favorable report of the public morals committee.

A petition was presented from B. E. Meyers asking that the Redwood City Boys' Club be granted the use of the old kindergarten building as a place of meeting. The petition was granted with the understanding that care must be taken to avoid damage to the property.

A petition was presented from a number of the property owners on Oak avenue requesting that steps be taken to improve that thoroughfare without delay. While the trustees indicated a desire to promote public improvement of this character as rapidly as possible, they were not inclined to take further risk of preliminary engineering work which would cost a considerable sum unless some guarantee was given either that the bonds for the improvement could be financed or that the initial expense could be assured, and the clerk was directed to notify the petitioners that if a guarantee was given by them that if the bonds could not be sold they would reimburse the engineering expenses, which it was estimated would cost about $1000, steps which would be taken to secure the improvements.

Street Superintendent Dickey presented a list of recommendations for the construction of concrete curbs in the proposed street improvement districts 15 and 16. As it is imperative that this work be done in advance of the street improvement, upon motion of Trustee Hynding, City Attorney Mansfield was instructed to notify the owners of the property to make the improvements without delay.

At the suggestion of Chairman Merrill, an effort is to be made to secure a more satisfactory regulation of the automobile traffic at the depot. City Engineer Werder was instructed to devote some time to this matter and to require the owners of machines to take their stand in the proper places.

Chairman Merrill informed the council that the residents of Wellesley Park had formed an improvement club and would undertake to keep the streets of that section free from weeds and look after the shade trees planted on the walks. Mr. Merrill urged that similar movements be started in other portions of the city.

Street Superintendent Dickey reported that he was meeting with all kinds of trouble in his endeavor to secure the much desired beginning of a uniform system of ornamental tree planting for the streets of the city. After considerable trouble he had secured from the residents of Arguello street an agreement to plant flowering almond trees for practically the entire length of the street, but just as bhe believed that the hard part of the undertaking had been completed, he had been confronted by the seeming impossibility of securing the necessary trees to plant. Not wishing to allow the opportunity to beautify the town to be lost, he was instructed to make another effort to secure the promised trees and in the event of failure in this, to endeavor to secure a modification of the agreement so as to allow of planting some other acceptable variety.

By an official resolution the council adopted and approved a set of specifications for a corosive test of metals intended for culvert uses in the city and gave to the specifications the official name of the "Redwood City Test." These specifications were prepared by Mayor Merrill and City Expert Bruno Heyman after an exhaustive series of experiments.

Ordinance No. 104, intended to amend Ordinance No. 102 so as to define the legal status of hospitals and sanitariums, was given its final reading and adopted.

There is to be no more hagling over water bills, a matter that has been the cause of considerable annoyance in the past. According to the order made at this meeting, in the future all bills must be paid as presented by the collector of the water will be shut off. It was also decided that no applications for rebate will be considered until after the bills have been paid.

This meeting was the time set for the hearing of objections to the proposed improvement of the streets in district No. 15, but no protests had been filed with Clerk Plump and no one appeared before the council to make objections. After an opportunity had been given for this purpose, a resolution was adopted finally ordering the work and levying the assessment for the purpose.

Assessor's Instructions

To Owners of Real Estate and Personal Property.

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where his property is located. You should give a statement of all property owned by you on the first Monday in March at 12 o'clock m.

If you hold mortgages against others send in a mortgage statement showing amount due on each mortgage on the first Monday in March at 12 o'clock m.

No change can be made by the Assessor after he turns over his books to the Board of Supervisors on the first Monday in July. The Board then sets as a Board of Equalization during the month of July.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

It is much more satisfactory to the Assessor, as well as to yourself, to have your assessment correct when you go to pay your taxes.
